

KARTIK PRAKASH SHENDE

Los Angeles, CA | 213-994-9083 | kartik.shende70@gmail.com | [LinkedIn](#) | [GitHub](#)

Senior Data Analyst with 3+ years architecting end-to-end analytics and data science solutions, from automated ETL pipelines and data lakes to interactive BI dashboards, across operations, supply chain and finance domains. Proven experience in AI-driven analytics, spanning NLP, predictive modeling, and RAG-based solutions, to inform high-stakes decisions and deliver \$100M+ in measurable impact for top-tier global clients.

EDUCATION

University of Southern California, Marshall School of Business – Los Angeles, CA **August 2024 - May 2026**
Master of Science in Business Analytics (STEM)

Relevant Coursework: Product Management, SQL, Big Data Analytics, Supply Chain Analytics, Statistical Analysis
Graduate Teaching Assistant: Agile Frameworks for Data Science Deployment

Shri Ramdeobaba College of Engineering and Management – Nagpur, India **August 2017 - July 2021**
Bachelor of Engineering in Electronics Engineering

WORK EXPERIENCE

Tata Consultancy Services – India **August 2021 – August 2024**
Senior Analyst – Data Science & Reporting

- Developed and maintained end-to-end analytics solution integrating 5B+ Azure SQL records, delivering actionable insights driving strategic decision-making for 50+ operations and supply chain leaders globally.
- Spearheaded development of interactive BI dashboards and performance reports, transforming multi-source operational data into actionable KPIs, cutting operational downtime by 60% and driving \$48M+ in annual savings.
- Engineered scalable, automated ETL/ELT pipelines across structured and semi-structured sources into an Azure data lake via Data Factory, reducing query runtime by 40% and lifting data quality and reporting accuracy to 80%.
- Embedded predictive modeling and self-service analytics into the analytics platform, enabling ad-hoc and strategic analyses, slashing manual analysis effort 60% and accelerating data-driven insight delivery for senior leadership.
- Partnered cross-functionally with Sales, Finance, and Product stakeholders to translate complex business requirements into data-backed, end-to-end analytics solutions, supporting \$95M+ in customer acquisition.

Tata Consultancy Services – India **January 2021 – June 2021**
Data Analytics & Insights Intern

- Automated data retrieval and ingestion workflows with Microsoft Power Automate, delivering real-time reporting metrics and eliminating 30+ manual hours weekly, freeing teams to focus on higher-value analytical work.
- Applied statistical analysis and correlation techniques to audit reporting infrastructure end-to-end, resolving data quality failures, cutting reporting errors by 50% and standardizing workflows across 4 business units.

PROJECTS

PitSight - BMW Customer Sentiment & Sales Intelligence ([Live Report](#) | [GitHub](#)) **February 2026 – March 2026**

- Engineered a lexicon-based NLP pipeline analyzing 103K BMW reviews across 21 countries, scoring 6 sentiment dimensions and reaching 90.7% accuracy with a Random Forest model via AI-assisted development.
- Validated sales data against external benchmarks via AI-augmented research, then modeled sales-sentiment relationships in Power BI dashboards, identifying service frequency and duration as 87% of satisfaction drivers.

Workforce Intelligence and Performance Analytics Platform **November 2025 – January 2026**

- Built an interactive, end-to-end workforce analytics dashboard for a consulting firm via AI-assisted development, boosting leadership visibility into performance data 50% and enabling data-driven decisions across 3 departments.
- Automated ETL data ingestion pipelines with Make agents and built a RAG pipeline over internal methodologies, enabling natural-language retrieval and minimizing 60% of manual effort in weekly routine lookups.

SKILLS

Data, Cloud & Technology: Azure, AWS, Power BI, Tableau, Python, SQL, ML, NLP, Advanced Excel (Pivot Tables, Power Query, Formulas), Microsoft Fabric, Copilot, Snowflake, ETL/ELT Pipelines, DAX, Power Automate.

Analytics & AI: Predictive Analytics, End-to-End Analytics Solutions, Statistical Analysis, A/B Testing, Forecasting, EDA, Data Modeling, Data Quality, Prompt Engineering, RAG, LLM-Assisted Development, Ad-hoc Analysis.

Business & Strategy: Cross-Functional Collaboration, Global Client Communication, Agile/Scrum, Jira, Stakeholder Reporting, End User Support & Reporting, Business Requirement Translation, Stakeholder Requirement Gathering.
